

The ViaQi device from Avazzia is a hand-held accessory that emits frequency modulated electromagnetic pulses through a precision winding around a hexagonal quartz crystal. The accessory is easy to use at home or in a healthcare facility.

BENEFITS

- Pulsed electromagnetic field (PEMF) output for touch-free therapy
- Compatible with Avazzia BEST® devices

FEATURES

- LED indicates when output is active
- Operated by an external stimulation source or frequency generator
- No additional batteries required

TECHNICAL SPECIFICATIONS

Size, weight	Size: 171 mm X 88 mm X 31 mm (6.75 in. x 3.48 in. x 1.22 in.) Weight: Approx. 164 grams (5.8 oz)
Power source	External stimulation source or frequency generator
Output	Magnetic induction 300 to 700 mG
Waveform	Electromagnetic pulses controlled by external frequency generator
Dielectric	Hexagonal quartz crystal

ADDITIONAL PRODUCT INFORMATION

User Controls	None; accessory output is controlled by external stimulation source or frequency generator.
Indicators: visual	LED lights up when output is active.
Availability	U.S., Canada, Australia, Malaysia. Visit www.avazzia.com for information.
Quality manufacturing	Assembled by Avazzia in U.S. with imported and domestic components. ISO 13485:2016 international certification.
