Mark area of symptoms in one color; mark area of treatment in a second color, if different than areas of symptoms (use highlighter or similar type marker).

Treatment notes including power level and mode for 3-Pathways and 6-Points:

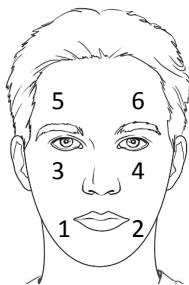

### 3-Pathways 6-Points Treatment

box, record the Initial Reading and, if necessary, the Ongoing Reading. Go to the location in each column of highest IR reading and record the Dose reading. Three columns are for the left paraspinal readings, spine and right paraspinal readings.

On the back: Begin at C7. Go down the spine to take readings, loop to the top and take readings at C5 and C6. In the corresponding

**6 Points Treatment:** In numerical order, measure and record Initial Reading and, if necessary, Ongoing Reading and Dose or Zero reading. Numbers correspond with trigeminal nerve locations on face.
