

# Got Pain?

Founded in Dallas, TX in 2004, Avazzia designs, manufactures, markets and distributes scientifically advanced FDA cleared medical devices for management of pain. The products use patent pending BEST technology which is Bio-Electro Simulation Technology. Interactive feedback is the body's response to the stimulus (such as micro-current) and technology's ability to detect, measure, analyze and respond to the body.

ISO 13485 certified  
FDA cleared  
CE approved  
CB certified

Manufactured in Texas and sold globally

*I have received several major injuries during my tenure in sports - high school through my professional career. I have tried everything I could find to soothe and relieve my aching muscles and tendons. After only 20 minutes of therapy, the Med-Sport™ brought relief I have been trying to find for years. As a coach, I consider Med-Sport™ and Best-RSI™ units to be the next generation of approved therapy devices to be recommended by team doctors, team trainer and people like myself who know the value of positive results. It really works. Bill Scott suffered over 11 broken bones in his hands during his career.*

**Bill Scott, former NFL Lineman,**  
Oklahoma Coaches Football Hall of Fame, Recipient and President of the Redman's Coaching Association

*My wrestling team uses the Avazzia Med-Sport™ with great results. We have found it to be especially effective on sprains and muscle tears. Injuries heal much quicker with the use of the Med-Sport™, allowing the injured athlete to return to competition much sooner. I enthusiastically recommend the Med-Sport™ to any coach or athlete.*

**James Hazewinkel,**  
**Two Time Olympian Wrestler.**  
Holds two NCWA National Team titles.  
Inducted into National Wrestling Hall of Fame, 2005
