

BEST-RSI Product Description

The BEST™ line of products are hand-held, battery-operated, electro-stimulation medical devices. The Avazzia BEST-RSI is designed for at-home or clinical use and offers easy-to-use features including four popular frequencies to allow patients to administer microcurrent pain relief at home or healthcare providers to administer powerful microcurrent treatment in the office.

Avazzia BEST technology uses unique output waveforms and frequencies and treatment will not be accommodated by the body. The microcurrent treatment may be administered using the onboard electrodes on the unit's back or with accessories (purchased separately).

Research has shown microcurrent offers long-term pain relief without drugs or surgery. It is not habit-forming and non-addictive.

	PRODUCT SPECIFICATIONS
SIZE AND WEIGHT	Size: 117mm X 64mm X 33mm. Weight (device only): Approx. 108 grams (3.8 oz). Weight (with batteries): Approx. 153grams (5.4 oz)
FREQUENCY, HZ	25 to 150 Hz
Power Source	2 AA 1.5V DC batteries
ОИТРИТ	Maximum Voltage: up to 650V Maximum Current: 1500μa
PULSES	Pulse Duration: less than 2 ms
WAVEFORM	Pulsed, damped, biphasic sinusoidal
AUTOMATIC SHUT-OFF	60 minutes

	PRODUCT INFORMATION
Modes Of Operation	Relax, Deep Stimulate, RSI, Acute
AUDIBLE INDICATIONS	30 second tick 2 minute double beep Chirp in Relax mode at start of application Ring in Relax mode indicating progress Beeping to indicate low battery
VISUAL INDICATIONS	Mode selection Power intensity indicator Low battery indicator
PRODUCTION	Assembled by Avazzia in U.S. with imported and domestic components
AVAILABILITY	By prescription only in the U.S.
ACCESSORIES (SOLD SEPARATELY)	Y-electrode, adhesive conductive pads, brush electrode, pencil electrode
CLEARANCES	ISO 13485 international certification CE approved, CB certified HealthCanada certified FDA-Cleared for symptomatic relief and management of chronic, intractable pain, and adjunctive treatment in the management of post-surgical and post-traumatic pain. Prescription required.
WARNINGS	Not to be used by those with pacemaker or other implantable electrical device. Not to be used by pregnant or nursing women. Do not use directly over carotid artery or cause current to run transcranially. Do not use directly on open wounds. For more warnings, please see owner's manual.
